Report of Planning Board

The Center Harbor Planning Board has met regularly the second Thursday of each month this past year and discussed many problems which Center Harbor will have to face in the future. Zoning has been discussed and is not considered prudent this year. Much is being accomplished along this line through restrictive deeds and proper planning by the large sellers of real estate in our town.

The availability of a town cemetery has been investigated and several locations examined, none of which were practical. Site selection is a responsibility of the Selectmen but we have been asked and are willing to help.

Plans for the development of presently owned town properties and improvements of same are essential and will require more work next year. Should a new bandstand be erected or should a shell be erected and if so, where, adjacent to the fire house or in a field by the lake?

Police protection, availability and cost, not necessarily highway patrol, is becoming more and more noticeable. It is fair to call a man away from his work at a loss in wages to him?

The Planning Board is here to help plan for the orderly growth of our town, to try to foresee problems before they arise, and to promote the best use of our facilities.

Our meetings are held in the Selectmens' room on the second Thursday of each month. We welcome suggestions from everyone.

James F. Hughes, Chairman

Red Cross Secretary's Report

American Red Cross—Center Harbor Branch

The annual meeting of the Center Harbor Red Cross was held June 29, 1964 in the library.

The Water Safety Program was under the direction of Vincent Flewelling of Meredith. The Chapter voted to buy a megaphone for his use at the beach. A great many children of both local and summer parents take advantage of the swimming classes.

The hospital bed and other Red Cross equipment has been in use during the year.

It was voted to change the meeting date from the last Monday in June to the third Tuesday in April at 7:30 P.M. in the library.

Forest Fire Warden's Report

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second successive year, we experienced a rainfall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds, characterized 1964 as one of the most hazardous years in the past half century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our state is now 86% wooded and its economy — both industrial and recreational — is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area — 4,350,000 acres — is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.
2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.
3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident that we can improve our fire record in 1965.
